CONTENTS

11 Editorial :

Are we Marching away from Safety ? — *Tamonas Chaudhuri*

13 Insight :

Shining India — Dream of A Monk — *Jyotirmoy Pal*

16 Review Articles :

Repurposing Mefenamic Acid in the Management of COVID-19 — *K K Aggarwal, Yeh Woei Chong, Rajan Sharma, Marthanda Pillai, Ravi Naidu, Alvin Yee-Shing Chan, Marie Uzawa Urabe, Debora Cavalcanti, Prakash Budhathoky, Qalsar Sajjad, Russel D'Souza, N Ganabaskaran, Md Jamaluddin Chowdhary, Prakash, R V Asokan, Ramesh K Datta, Jayakrishnan Alapet, V K Goel, Brijendra Prakash, Shashank Joshi, Ashok Gupta, Suneela Garg, Alex Thomas, D R Rai, JA Jayalal, P N Arora, K Kalra, A K Aggarwal, Anita Chakravarti, Atul Pandya, Shantanu Tripathi, Bejon Mishra, T S Jain, Anil Pachnekar, Shivkumar S Utture, Ketan Mehta, R P Pareek, Alok P Nachane, Ambanna Gowda, Shilpa Karande*

[With the growing understanding of coronavirus disease-2019 (COVID-19) pathogenesis, different therapeutic targets are being considered for the management of COVID-19. The development of new drugs is a time-consuming process; hence, many drugs acting on similar therapeutic targets/sites in the COVID-19 treatment are repurposed in COVID-19]

24

Classical and Molecular Virology in the Context of SARS-CoV-2 — *Shailesh D Pawar, Babasaheb V Tandale, Deeksha S Tare, Sachin S Keng, Sadhana S Kode, Priya Abraham*
[Diagnostic virology has evolved as a discipline from being confined to hospital laboratories to dedicated state-of-the-art research facilities around the world, working on different aspects of diagnosis and research on viral diseases.]

31

New Strain SARS CoV2 — *Partha S Ray*
[Under severe strain for nine months of 2020, with 1.8 million deaths through Covid 19 and 85 million people infected, we were all hoping 2021 would show us the light at the end of the tunnel.]

37 Voice of the Expert :

Adult Vaccination : Some Frequently asked Questions & Answers — *A Muruganathan*

43 Original Articles :

The Glitch with the web of Anti Tubercular Drugs — A Prospective Study on Adverse Drug Reactions — *Santanu Kumar Ghosh, D P Singh, Abhishek Kumar Tiwari, Ajay Kumar Singh*
[Adverse drug reactions to antituberculous drugs in DOTS are common and can cause significant morbidity and mortality. Gastrointestinal intolerance, hepatitis and cutaneous side-effects are commonly encountered.]

47

Faculty Perceptions of Theory Question as an Assessment Tool : A Survey — *Anjan Adhikari, Santanu Munshi, Moumita Roy, Sangita Bhattacharya, Rania Indu, Anup Kumar Das*
[Medical Education is recognized as an essential system for ensuring the quality of health of common people. Assessment plays a very important role in guiding the direction of the development of meaningful learning.]

52

A Study of Serum Magnesium and Serum Zinc Concentration In Type 2 Diabetes Mellitus Patients with and without Diabetic Nephropathy — *Tapas Paul, Polok Das, Prithwiraj Bhattacharjee, Dwijen Das*

[The deficiency of important trace elements like Magnesium and Zinc in terms of their serum concentrations in Type 2 Diabetes Mellitus patients, commonly claimed to be a cause of diabetic nephropathy.]

56

Factors affecting High-Risk exposure amongst Health Care Workers (HCW): Audit of COVID-19 Risk Assessment Committee from Tertiary Care Centre in North East India — *Vikas Kantilal Jagtap, Tony Ete, Lanalyn Thangkhiew, Evarisalin Marbaniang, Anita Marak, Daunipaia Slong, Dathiadiam Tongper, Nari Mary Lyngdoh, Amitav Sarma, Noor Topn*
[Quarantine and testing of High-Risk exposures of COVID-19 positive Health Care Worker (HCW) are recommended as per Ministry of Health & Family Welfare (MoHFW) guidelines. Many factors prevail when a HCW becomes High-Risk contact of a positive HCW during or after work hours.]

60 Special Correspondence :

World Leprosy Day : Looking Beyond MDT — *Bani Prasad Chattopadhyay*
